This End User License Agreement ("**EULA**") sets out the terms on which Kipu Quantum GmbH ("**Kipu**") grants to end users ("**End Users**") a non-exclusive license to use the *Kipu Quantum Function* ("**Software**") through IBM or its affiliates ("**IBM**") on the *IBM Quantum Premium Plan (Beta)* cloud service.

This EULA applies only in connection with a valid license agreement between IBM (or its affiliates) and the End User ("**IBM License Agreement**"). The IBM License Agreement is a prerequisite for this EULA. In case of any conflict, the IBM License Agreement prevails with respect to commercial terms, scope of use, and term.

By downloading, installing, accessing, or using the Software, the End User agrees to be bound by this EULA. If the End User does not agree, the Software may not be used.

1. License Grant

Subject to this EULA and the IBM License Agreement, Kipu grants the End User a limited, non-exclusive, non-transferable, non-sublicensable right to use the Software solely (i) in conjunction with IBM's offerings, and (ii) within the scope and duration of the IBM License Agreement.

2. Beta Version

The Software is provided as a **Beta version**, for **testing and evaluation purposes only**, and **not for production or commercial deployment**. End User acknowledges that the Software is not intended for other purposes and that End User will not rely on it as such.

3. Ownership and Intellectual Property

All rights, title, and interest in and to the Software, including all intellectual property rights, remain with Kipu and its licensors. No ownership rights are transferred under this EULA. The End User shall not copy, modify, decompile, reverse-engineer, or otherwise derive source code from the Software, except as expressly permitted by mandatory law.

4. Restrictions on Use

The End User shall not: (i) use the Software for any unlawful purpose or in violation of applicable laws or third-party rights; (ii) rent, lease, or sublicense the Software; (iii) use the Software for time-sharing or service bureau purposes; (iv) circumvent or disable any technical restrictions or usage controls within the Software.

5. No Warranties

The Software is provided "**as is**" and "**as available**," without warranty of any kind, whether express or implied. The Software is experimental and may contain errors or omissions. In particular, Kipu makes no warranty that the Software will be error-free, fit for a particular purpose, or suitable for production use. Kipu does not commit to provide maintenance, error-correction, upgrades or technical support unless separately agreed in writing.

6. Limitation of Liability

Kipu's liability is limited to intent and gross negligence. In cases of simple negligence, Kipu shall be liable only for foreseeable damages typical for this type of contract. Liability for loss of data, indirect damages, or consequential damages is excluded, except in cases of intent, gross negligence, or injury to life, body, or health.

7. Data Protection

Kipu does not process personal data of the End User except to the extent technically required to provide access to the Software through IBM. All processing, if any, occurs within IBM's controlled environment.

8. Term and Termination

This EULA becomes effective as of the date the End User first accesses or uses the Software ("**Effective Date**") and remains in force for the same term as the IBM License Agreement. Termination or expiry of the IBM License Agreement automatically terminates this EULA without further notice. Kipu may

terminate this EULA immediately if End User breaches any material term of this EULA. Upon termination, the End User must cease all use of the Software and delete all copies.

9. Export Control

The End User agrees to comply with all applicable export control and sanctions laws and shall not export or re-export the Software in violation of such laws. In particular, End User shall not export, re-export or otherwise transfer the Software to a country or entity to which export is prohibited by applicable German, EU or U.S. export laws or regulations.

10. Governing Law and Jurisdiction

This EULA shall be governed by the laws of the Federal Republic of Germany, excluding its conflict of law provisions. The courts of Berlin, Germany, shall have exclusive jurisdiction.

11. Entire Agreement

This EULA constitutes the entire agreement between Kipu and the End User concerning the Software and supersedes any prior understandings or communications, except as expressly incorporated by reference to the IBM License Agreement.
